Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is/are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current systems:

Through the document review, management interview and workers interview; no discrimination was found in hiring, compensation, access to training, promotion, termination or retirement. The facility provides the equal pay to male/female employee. As informed by interviewed workers, most employees spoke highly of the facility management.

There is no issue regarding equal job/equal pay, which could be verified by auditor by comparing the wages of male, female at different levels, records of equal remuneration are maintained.

No worker was required to do the examination of the hepatitis B virus and HIV.

There were no issues of discrimination found in site practices, based on sex and age, Anti-discrimination procedure on hiring, compensation, promotion and access to training is available during the audit.

Gender divisions did not exist in the facility; both female and male workers were distributed in all types of work.
